

## Indiana Lake Michigan Coastal Program - 6217 Workgroup

### Management Measures for Urban Areas

#### Objectives:

1. New Development Management Measures  
*Exempted*
2. Watershed Protection Management Measure  
*Encourage sound planning principles, management, and mitigation measures to protect, enhance, and restore natural resources and reduce runoff to surface waters.*
3. Site Development Management Measure  
*Ensure that site-specific development designs protect, enhance, and restore natural resources and reduce runoff to surface waters.*
4. Construction Site Erosion and Sediment Control Management Measure  
*Exempted*
5. Construction Site Chemical Control Management Measure  
*Exempted*
6. Existing Development Management Measure  
*Exempted*
7. New Onsite Disposal Systems Management Measure  
*Ensure state officials permit the use of best available technology for installation and maintenance of new onsite disposal systems.*
8. Operating Onsite Disposal Systems Management Measure  
*Reduce non-point source pollution resulting from onsite disposal systems.*
9. Pollution Prevention Management Measure  
*Reduce the amount of non-point source pollution from everyday residential and commercial uses and activities.*
10. Management Measure for Planning, Siting, and Developing Roads and Highways  
*Ensure that state officials plan, site and develop roads and highways away from areas classified as eco-significant and susceptible to erosion and sediment loss.*
11. Management Measure for Bridges Management Measure for Construction Projects  
*Exempted*
12. Management Measure for Construct Site Chemical Control  
*Exempted*
13. Management Measure for Operation and Maintenance  
*Exempted*
14. Management Measure for Road, Highway, and Bridge Runoff Systems  
*Exempted*
